Advent Keepsake

Paper size: A4 (210 x 297 mm)

How to print

1. Print at 100% scale (Actual size). Do not use “Fit to page”.

2. Choose the same paper size you selected: A4 or US Letter.

3. Use ordinary home printer paper. Cardstock (about 200–220 gsm) is nicer if your printer allows it, but it is optional.

4. Let pages dry, then cut along the dashed cut marks. The thin marks sit outside the card boundary.

5. There is no full-page bleed. A small white margin around the sheet is expected.

6. For a lighter ink look, your printer’s “draft” or grayscale mode is fine; the layout is designed not to flood the page with solid color.

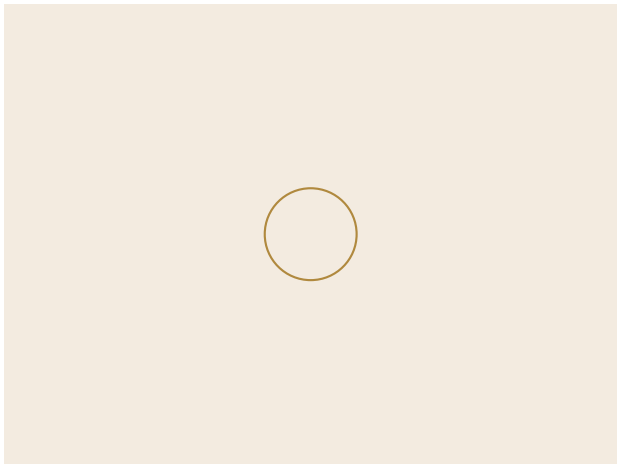

7. Nothing will be shipped. If a page looks wrong, start from the download page rather than reprinting a screenshot.

Digital download — nothing is shipped.

For adults making a keepsake for their family. A warm paper tone is part of the design.
